NAHB NATIONAL
GREEN BUILDING
PROGRAM™

Green Building/Energy Star Symposium

The **Green Building Symposium** is intended to educate and train building industry professionals about the growing issues facing residential construction today. The NAHB Green Building Initiative guidelines and the Energy Star construction methods and requirements are the focus of this training session. The **Houses That Work** training session, conducted by the **Energy & Environmental Building Association (EEBA)**, will cover building systems guidelines and building in cold climates.

EEBA Houses That Work CEU's

AIBD accreditation 8 CEU's
AIA accreditation 8 CEU's
RESNET - 5 CEU's

Green Build/Energy Star

AIBD accreditation 4 CEU's
AIA accreditation (to be verified)
RESNET - (to be verified)

The **Green Building Symposium** will benefit home builders, remodeling contractors, design professionals (home designers and architects), realtors, building code officials, and real estate appraisers. A certificate of completion must be submitted to related association for continuing education values.
