## Interview & Photo Opportunities

**Justin Wilson**

### Green Building/ Energy Star Symposium - May 7 & 8

The industry symposium will be held from 9:00am to 4:00pm on Thursday, May 7.

The public is invited to a special presentation by Justin Wilson from 6:00pm to 8:00pm on Thursday, May 7.

**Holiday Inn Miamisburg (Dayton Mall area)**  
31 Prestige Plaza Drive  
Dayton, Ohio 45342

---

**Interviews of presenters, builders and attendees will be coordinated by the media contact listed above:**

**Justin Wilson** of Building Performance Solutions, Inc., of Boulder, Colorado presenting; “Building Energy Efficient Homes Through Integration & Implementation”. Highly regarded nationally and heavily requested to return from last year’s symposium, Justin has extensive experience creating and presenting educational seminars to developers, builders and other industry professionals. A few of the recipients of Justin’s seminars include the US Green Building Council, Built Green Colorado, the National Association of Home Builders, Canada Mortgage & Housing Corporation, Enterprise Green Communities, and the Energy & Environmental Building Association (EEBA). It is with EEBA that Justin partnered to develop and deliver an intensive one-day “Houses that Work” educational seminar nationwide.

**“Vectren Conservation Connection presents Building a Green Home with Justin Wilson”.**

This program is for the new home buyer craving to learn the key green building elements in high performance homes. The message will include designing buildings with technology and products delivering to customers homes that are more: durable, safe and healthy to occupy, comfortable, resource efficient (energy, water and waste) and have a great resale value. This program is offered to the general public from 6:00pm to 8:00pm on May 7 for a nominal registration fee of \$10 per attendee.

Several **home builders** embracing the green building movement will be in attendance. Show case homes with displays and/or site visits will be available.

A **green product and material expo** will be taking place at the same time with suppliers and installers available for interviews.
