

# Welcome to the Vectren Builder Portal

Vectren's Builder Portal is an easy one stop shop for utility service with Vectren. From entering an application to ordering a meter, the Vectren Builder Portal has you covered.

## Builder Portal Benefits

### ACCESS VIA PC, PHONE OR TABLET

The Builder Portal is mobile-friendly and can be accessed through our website or by downloading the mobile app from your app store.

### CREATE CUSTOM TEMPLATES FOR COMMON ORDERS

Once signed up you can order service 24/7. Tired of entering the same information over and over? Builder Portal allows you to save templates so you don't have to start from scratch on each project.

### MONITOR YOUR REQUESTS

Monitor your service request status from application, planning, scheduling, construction and meter set. You can view all active service requests and completed services up to 6 months.

### UPDATE SERVICE NEED WEEK

Is your build going to take longer than expected and you need to update your week of installation? Builder Portal allows you to update your schedule at any time.

### CHECK YOUR REQUEST STATUS

Want to check the status of an order? The status bar at the top of the *My Orders* page shows you where an order is in the process. You can also track the complete history of your order, including the dates at which it was moved to a new point in the process.

### PAY AND VIEW BILLS

Now you can manage your accounts from one tool. Builder Portal allows builders to pay current bills and review previous bills.
